WITH TERRITORY!

(Continued from Page One.) Orteric's Passangers.

All but 437 of the Orterio's passengers were seconfordated at quarantine, and seventy out of these would be re-leased straightway. There was a good process of selection going on, and grad-ually they would all be drafted out. The immigration people were doubtful us to who would pay the quaranties bills, and he had written to Doctor Clark suggesting that a copy of all the requisitions issued up to the present time should be made and passed over to some completent person to check off. to some competent person to check off.
All future requisitions could be kept
track of and checked up, and so simplify matters.

Who Drank the Beer?

Doctor Clark's letter had only just that matters should be run along similar lines to the suggestions put forward
by Mr. Mott-Smith. In the middle of
suggesting that provisioners should be
unusely bound by red tape that he did
not dare to move, or budge, for fear
that he would be "fired."

"Officially" Mr. Stackable could not
even say that Captain Zeeder of the
Siberia was recently fined for rome violation of Uncle Sam's navigation laws.

"Individually" The Advertiser had
no clam upon Mr. Stackable, as it was
as an official from whom this peper
asked information regarding a matter
which has considerable public interest.

First of all the Orteric was chartered by agents of the Territory of Ha
waii to bring immigrants here from
Europe, their passage. "Officially" Mr. Stackable could not open his mouth, and individually he could not state anything because he lar lines to the suggestions put forward

priations, and said that, taking matters right through, they had not fared so badly. They had been granted \$50,000 Europe, their passage being paid by the Territory of Hawaii, from funds which are contributed by taxpayers. The fund is dealt with as a public fund, and the question of bringing immigrants to Hawaii is one of the public matters in \$250,000 for sewerage.

In the matter of the proposed \$75,000 for the garbage department, it had been pointed out that the outside members of the house might not feel inclined to appropriate money to be spent on Honolulu. On the other hand, they must take into consideration that it was not for cleansing Honolulu, but for brit ing up to date the shipping port of the

The Gold Mine.

Doctor Pratt reported on the Gold Mine district. There were seventy-odd Hawaiian householders living there and some fifty Russians. These were pay-ing fifty cents a week rent, and only three of them were paid in advance; all the rest were behind. SEWER RATES CUT JUST FIFTY PER CENT BILL PASSES HOUSE AMENDED

TO LOP OFF PROFITS TO

TERRITORY.

(From Thursday's Advertiser.) After cutting in two the sewer rates as first proposed in a bill introduced in the legislature by Representative Williamson, the house yesterday tried to cut them still lower, but the majority would not consent when it was understood that a certain amount was an account to the state of the service of the absolutely necessary to pay the interest on bonds and the sinking fund, as well as the operating expenses, Williamson opposed cutting the rates

more than fifty per cent, be himself submitting the new rate, which was adopted.
